Profile

MERN Stack Developer with hands-on experience building scalable web applications, SaaS platforms, dashboards, and management systems using MongoDB, Express.js, React.js, and Node.js. Passionate about developing modern, high-performance applications with clean architecture, responsive UI, secure authentication systems, and optimized APIs.

SKILLS

HTML, CSS, JavaScript , Bootstrap and Tailwind | TypeScript | React JS |
Version Control (Git, GitHub) | Node js | Express js | MongoDB | RESTful APIs

PROJECTS

Smile Desk 📁, *Clinic Management System* 01/2026 – 03/2026

- Developed a full-stack clinic management system designed to streamline appointment scheduling.
- Role-based dashboards for Admin, Doctors, and Reception staff
- Appointment scheduling and management system
- Secure authentication and protected routes
- REST API integration and real-time data handling

Technologies: React.js, TypeScript, Node.js, Express.js, MongoDB, Tailwind CSS, JWT Authentication

Grotek 📁 03/2025 – 06/2025

- Developed a modern e-commerce website for displaying and managing products with a clean and user-friendly interface.
- Interactive and responsive UI
- API integration and dynamic data handling
- Optimized performance and reusable components

Technologies: React.js, TypeScript, Node.js, Express.js, Firebase, Tailwind CSS

EDUCATION

Bachelor's in Software Engineering, *Al-Azhar University, Gaza* 09/2021 – 2026

- **Key Coursework:** Algorithms, System Design, Software Development Life Cycle (SDLC), and Database Management.
- **Technical Focus:** Advanced FullStack Development with a focus on Clean Code and Scalable Architecture.

Gaza

COURSES

Back-End Development, *Vision Plus - Gaza* 03/2026 – 05/2026

- Completed an in-depth course on building modern backend applications and RESTful APIs using Node.js and Express. Gained hands-on experience in creating scalable and maintainable server-side architectures, managing databases, and implementing robust application logic to improve system performance and data security.

Gaza

React and NextJS Training, *Gaza Sky Geeks* 10/2024 – 02/2025

- Mastered Server-Side Rendering (SSR), Static Site Generation (SSG), and Incremental Static Regeneration (ISR) for high-performance web applications.
- Optimized web performance and implemented SEO best practices to enhance user experience and scalability.
